

Wine Bouquet. Wine experience in Valpolicella.

One day's journey with Amarone Classico, king of Valpolicella and one of the most representative wine worldwide. Strolling through the hills and vineyards, far from mass tourism, tasting different wines, I will guide you through sensorial analysis and intimate knowledge of the territory and its products.

From scenic road we will see and understand Valpolicella admiring its scenery. Thanks to Valpolicella's map and introduction, technical sheets for all wines and wineries, you will always be informed, following your tour step by step.

We'll break our journey several times on the way, to visit vineyards and three wineries and their cellars, to taste and discover the most representative wines of Valpolicella (doc e Superiore, Ripasso, Amarone and Recioto), to learn how to use and recognise aromas, flavours, smells and tastes. We favour smallest and family run business. By your specific request it will be possible to visit other wineries.

To taste a new place you should meet its traditional food.

Your lunch will be organised in a typical restaurant of Valpolicella: your menu includes the most representative recipe, depending from the season and your taste (wine is included).

One day's journey of Culture and passionate knowledge, with relaxed rhythm and your schedule. Any mass tourism place. Any other group with us.

You will be informed: every time you will know where you are, which road we drive, which Wineries and noteworthy place will be near us.

It is not a tourist service: wine experience appeals to "amateur" wine lovers and professionals - wine importers, sommeliers, restaurateurs, wine journalists.... (for beginners and for experienced tasters) and to all those who would like to develop or discover more about Valpolicella and its wines.
