

Valpolicella and Lessinia. Smell of Valpolicella, Taste of Lessinia.

A real explosion of colours, flavours, smells and tastes from two different neighbouring territories: the perfect matching to taste and enjoy this part of Veronese land.

Across the territory, driving its 45 km, to see and understand Valpolicella land. Far from mass tourism and fixed itineraries, we travel from Valpolicella Classica area to DOC area via Lessinia.

We will visit the territory, two wineries and their cellars (one in the morning in the Classica Area and one after lunch in DOC area), where we will taste the most representative wines of Valpolicella.

Our stopover for lunch will be Lessinia and its treasures of traditional and ancient food, but so present today: ripe cheeses, salami, sauces and other delicatessen. Absolutely to try, see, taste. Also the lunch will include typical recipe of Lessinia, between *gnochi sbatui* and *malga cheeses*.

One day's journey of Culture and passionate knowledge, with relaxed rhythm and your schedule. Any mass tourism place. Any other group with us.

You will be informed: every time you will know where you are, which road we drive, which Wineries and noteworthy place will be near us.

Thanks to Valpolicella's map and introduction, technical sheets for all wines and winery, you will always be informed, following your tour step by step.

It is not a tourist service: wine experience appeals to "amateur" wine lovers and professionals - wine importers, sommeliers, restaurateurs, wine journalists.... (for beginners and for experienced tasters) and to all those who would like to develop or discover more about Valpolicella and its wines.
